

IPET CPD Costing Policy

Since CPD is considered a member's benefit and not a commercial undertaking, IPET aims to make the cost of CPD courses and validations affordable and charges fees accordingly.

IPET/6CDS VALIDATION COST

All events, webinars, online, conferences and courses

COSTING 2023 (NO VAT)		REVIEWER'S FEES 2023

5 Days	R 7,000.00	R 5,250.00	R 1,750.00

Refund and Cancellation Policy

Refund:

1. For online events, a full refund will be given upon cancellation received more than 48 hours before the event.
2. For physical or hybrid events where IPET had to lay out money to secure a venue and arrange catering, refund limits and deadlines are set according to the agreement with the service provider.

3. Cancellation:

In case of unforeseen circumstances leading to the event not being able to be presented, attendees will be notified as soon as possible, and arrangements will be made to postpone and present the event at a suitable time. Attendees will have the choice of a refund in terms of items 1 and 2 above.

IPET Costing Policy

IPET is a Voluntary Association not for gain who exist to serve our members. We are not a commercial undertaking aimed at maximising profit.

1. **Membership fees:** As the only association who caters exclusively for the Engineering Technologist family, we are committed to charge an affordable membership fee in line with the ECSA fee discount.

2. Rates for CPD courses: Since we view CPD as a service to our members we are committed to provide affordable CPD, and where possible, free CPD, to members.

3. CPD Validation and Verification fees: We also provide validation of CPD material at affordable fees for CPD material and do not charge for verification of CPD service providers.

IPET policy, process and price for Verification of Service Providers.

IPET charges affordable fees for validation of the course material provided by a service provider.

This validation is done by our discipline specific experienced validators.

If the coursework is considered acceptable, the service provider fills in the ECPD 7 form and provides the documentation required by ECSA on that form. It is then submitted for ECSA to register on their system. The provider is then supplied with the ECSA ECPD9 to confirm his status.

The Verification of service providers is done at no charge as a service to the Profession, in parallel with the Validation process.
